This window is displayed when the "Create new quiz" is Clicked.

The image shows a software window for editing a quiz. It has a light blue background and contains several input fields and buttons. Four yellow callout boxes with dashed borders provide instructions:

- Drop a list of the existing quizzes**: Points to a small list box at the top left.
- Import the contains of the quiz.**: Points to an **Open** button at the top right.
- Display all the questions in the quiz**: Points to a large empty text area in the middle.
- By selecting a question, the button imports all question details to the below fields.**: Points to a **Select** button located below the large text area.

The form layout includes:

- A **Question** label above a single-line text input field.
- A label **answers** positioned to the left of three stacked single-line text input fields.
- A label **The correct answer** positioned to the left of a single-line text input field.
- A **Save** button located below the **The correct answer** field.

By clicking edit quiz this window will be displayed.
